NOTES TO USERS

This map is for use in administering the National Flood Insurance Program. It does not represent the final version of the Flood Insurance Rate Map for this community. The map should be used when placing map or data marks; the
Community Map Repository number(s) shown above should be used on insurance applications for properties located in the subject community.

This map is a preliminary version of the Flood Insurance Rate Map for the subject community. It is subject to revision. Do not use for construction purposes. Please refer to the separately printed Revision Summary Table located in the Flood Insurance Study report for this jurisdiction. The Summary of Stillwater Elevations table should be used for flood insurance rating purposes.

NOTE: For purposes of this map, this community is referred to as "ALLEGANY COUNTY, MARYLAND AND INCORPORATED AREAS 240001.

LEGEND

FIRM FLOOD INSURANCE RATE MAP

ALLEGANY COUNTY,
MARYLAND
AND INCORPORATED AREAS

PANEL 23 OF 370
EFFECTIVE DATE
SEPTEMBER 30, 2015

The 1% annual chance flood (100-year flood), also known as the base flood, is the flood that has a 1% chance of being equaled or exceeded in any given year. The base flood elevation (BFE) is the elevation to which the 1% annual chance flood would reach. A BFE is intended for flood insurance rating purposes only and should not be used as the sole source of flood elevation information. Accordingly, flood elevation data presented in BFEs are intended for flood insurance rating purposes only and should not be used as the
sole source of flood elevation information. BFEs shown on the FIRM represent rounded whole-foot elevations. These flood elevations must be compared to structure and ground elevations of small size. The profile base line, in some cases, may deviate significantly from the channel centerline shown on this map, please contact the Information Services Branch of the National Geodetic Survey or visit its website at http://www.ngs.noaa.gov/ for further information. If you have questions about this map or its use, please contact the National Flood Insurance Program at 1-800-358-9677.
